- Corporate and Individual registration forms attached
- CME points will be accredited

# Synopsis

- The annual Singapore sports imaging seminar is now in its 9<sup>th</sup> iteration. Over the years, it has established itself as a local seminar dedicated to the imaging of sport injuries.
- This year, the focus will be on shoulder injuries in the athlete.
- We have lined up a panel of speakers from all over the island, including radiologists, sports physicians, surgeons and therapists who are experts in their respective field of practice.
- The seminar will cover imaging anatomy and techniques, clinical presentations and mechanisms of injury, imaging features of common injuries as well as both surgical, and rehabilitation aspects of management.
- It promises to be an interesting afternoon. We look forward to your participation.
